005	BI090	<p>Note for PIs and analysts: For panelists recruited via GfK (i.e. OwnerID=2 and 8, including former panelists recontacted via GfK (FORMERGFK=1)), a separate version of the 4CV2 web survey program was created by the Survey Research Centre (SRC) to accommodate GfK's requirement that their panelists be allowed to continue through the survey program even if they don't select ANY on-screen response (i.e. clicking 'next' at a question without endorsing any response).</p> <p>To enable this functionality, the GfK version of the web survey program has a background code programmed at every question called 'GfK no response', which behaves like a non-response option. This non-response option will NOT ever appear on-screen to the respondent and will only exist in the program code. It will be coded by default if any respondent advances past a question (clicks 'next') without selecting any on-screen answer option.</p> <p>--- In the web survey routing, this 'GfK no-response' code will be treated the same as if the respondent had selected 'Refused' (Prefer not to answer).</p> <p>--- An exception to this is for the US ETM Study invitation questions (ETM210a, ETM211a, ETM201a) where the GfK 'no response' code will be treated the same as if the respondent had selected 'No...'. However, in the case of any essential questions in the screener that determine eligibility, such respondents will be terminated.</p>

P and OwnerID=6 or 7: On behalf of the Cancer Council Victoria, ...</p> <p>...we invite you to participate in the International Tobacco and E-Cigarette Policy Survey--a unique study of around 13,000 smokers, former smokers, and e-cigarette/ vaping device users in the United States, Canada, England and Australia. We now invite you to complete the survey online, at your convenience.</p> <p>[All -- (C or P):] The survey questions will ask you about your beliefs, attitudes, and behaviours related to tobacco and nicotine use. Your answers to these questions help us to better understand how views toward smoking may differ over time in these countries. Some questions ask you to provide general information about your background.</p> <p>There are no known risks associated with the survey. The benefits are that your responses will help policymakers and health professionals develop future policies and programs on tobacco and e-cigarettes.</p>
022b	BI110b	<p>First we'll ask you a few essential questions for statistical purposes and to determine if you're eligible to participate.</p> <p>Participation is voluntary and you may withdraw at any time. You may skip any non-essential questions.</p> <p>If you wish to withdraw your consent after initiating the survey, please send your request to [email address for survey help].</p> <p>All personal information [OwnerID=0, 7, 8, 70 or 80: , including your name, address,] and survey answers will be kept strictly confidential and will not be shared with any person or group outside of the research team.</p>

VarName Changes

New Name	Old Name	Date	Survey	Changed By	Reasoning
HE515	HE514	23-Jun-2017	4CV2	Michelle M	In 4CE1 and 6E1, question HE514 was simply "Emphysema", but for 6E2 the Romanian team requested to add "COPD" to this wording because Romanians are more familiar with that term. 4CE2 was changed to match, as it's only now asked for UK. The new "COPD or emphysema" question is given VarName HE515 to differentiate from W1.
IQ156	HN156	28-Jun-2018 4:28:41 PM	4CV2	Michelle M	Now that we are using the IQ prefix for questions specifically about the IQOS brand of heat-not-burn products, this varname should use the IQ prefix, as it's about Heet sticks and only asked of IQOS users.
COHORT4CV	Cohort4CE	17-Aug-2018 10:19:06 AM	4CV2	Michelle M	To avoid confusion, we have renamed this variable to refer to the new project code '4CV'.
EQ758	ED801b	16-May-2019 11:07:25 AM	4CV2	Michelle M	Moving question to more appropriate VarName prefix.
EQ781	ED806	16-May-2019 11:11:19 AM	4CV2	Michelle M	Moving question to more appropriate VarName prefix.
