001a	OwnerID	**Coding of ITC sample ownership of contact information, for routing and conditional wording purposes. If (001a/OwnerID=0, 70 or 80), then contact information is owned by ITC. If (001a/OwnerID=1-9), then contact information is not owned by ITC.**
		    00 ITC-owned from 4C (CA, US, UK, AU)
		    01 CA Leger panelist
		    02 US GfK panelist
		    03 EN Ipsos panelist
		    04 [leave blank]
		    05 US Ipsos panelist
		    06 AU RMR panelist
		    07 N/A at Wave 3 [AU CCV dedicated vaper Replenishment sample]
		    08 US opt-in panelist, aged 18-24 (via GfK) (*see note)
		    09 EN panelist (via Rakuten AIP)
		    70 ITC-owned, previously recruited as AU CCV dedicated vaper sample
		    80 ITC-owned from 4CV2, previously recruited as US opt-in panelist aged 18-24
		Note:
		OwnerIDs included for 4CV3 Recontact are: 0, 1, 2, 3, 5, 6, 9, 70 and 80.
		OwnerIDs included for 4CV3 Replenishment are: 1, 2, 6, 8 and 9.
		NOTE: FORMERGFK sample are NOT being recruited at 4CV3. Thus, routing that references "FORMERGFK" is not relevant for 4CV3, but was retained to avoid generating new issues (i.e., given that no respondents would be affected since none meet the condition).
		
		IMPORTANT: Beginning at 4CV3, all new recruits coded as 001a/OwnerID=8 will remain as 001a/OwnerID=8 in future waves (i.e. will no longer be ITC-owned). 001a/OwnerID=80 applies only to recontact respondents who were coded as 001a/OwnerID=80 at 4CV2 (first recruited at 4CV1).

001b	COUNTRY	1 CA
		    2 US
		    3 UK
		    4 AU

002	In4C	**Coding to identify respondents who belong to the 4-001b/COUNTRY Cohort (i.e., were recruited at 4C and participated in 4C9 CA,US/ 4C10 UK,AU) versus respondents who were newly recruited from 4CV1 onwards.**
		  If respondent is from the 4C Cohort, then 002/In4C=1 (yes).
		  Otherwise, the respondent is a new recruit to the 4CV Cohort and 002/In4C=2 (no).
		    1 Yes
		    2 No

003	COHORT4CV	**Coding to identify the wave at which respondents were first recruited for 4CV.**
		(For 4CV3, 003/COHORT4CV=1-2 are recontacted respondents and 003/COHORT4CV=3 are replenishment respondents.)
		    1 Recruited at 4CV1 or 4C
		    2 Recruited at 4CV2

Q#	VarName	4CV3
		3 Recruited at 4CV3
004	Rtype	Derived variable 004/Rtype -- respondent is Recontact or Replenishment (C or P): If 003/COHORT4CV=1 or 2, then 004/Rtype=C. If 003/COHORT4CV=3, then 004/Rtype=P.
005a	REGMODC	Random assignment of respondents to Cigarettes Regulation Modules 1 and 2: If 005a/REGMODC=1, respondent is assigned to Module 1. If 005a/REGMODC=2, respondent is assigned to Module 2.
005b	REGMODV	Random assignment of respondents to Vaping Regulation Modules 1 and 2: If 005b/REGMODV=1, respondent is assigned to Vaping Module 1. If 005b/REGMODV=2, respondent is assigned to Vaping Module 2.
006	BI090	**Note for PIs and analysts:** For panelists recruited via GfK (i.e. 001a/OwnerID=2 and 8, including former panelists recontacted via GfK (FORMERGFK=1)), a separate version of the 4CV3 web survey program was created by the Survey Research Centre (SRC) to accommodate GfK's requirement that their panelists be allowed to continue through the survey program even if they don't select ANY on-screen response (i.e. clicking 'next' at a question without endorsing any response). To enable this functionality, the GfK version of the web survey program has a background code programmed at every question called 'GfK no response', which behaves like a non-response option. This non-response option will NOT ever appear on-screen to the respondent and will only exist in the program code. It will be coded by default if any respondent advances past a question (clicks 'next') without selecting any on-screen answer option. --- In the web survey routing, this 'GfK no-response' code will be treated the same as if the respondent had selected 'Refused' (Prefer not to answer). --- An exception to this is for the US ETM Study invitation questions (ETM210a, ETM211a) where the GfK 'no response' code will be treated the same as if the respondent had selected 'No…'. However, in the case of any essential questions in the screener that determine eligibility, such respondents will be terminated.

044	MP131	**Ask all.** ****IMPORTANT – READ CAREFULLY**** In this survey we mostly ask about **three different types of products**. You will be asked about all three types at different points throughout the survey. 1. **Ordinary cigarettes** (including roll-your-own and [factory-made/ packet]) 2. **Vaping products** 3. A newer kind of product, called **heated tobacco products** (or heat-not-burn products).
045	MP263	**Ask all.** The next questions are about **ordinary cigarettes (roll-your-own and [factory made/ packet])** that are filled with tobacco, lit with a match or lighter, and burned to produce ashes.

046	QA342	**Ask if C and 057/FR309v@LSD=40 or 80.**
		According to our records, you had quit smoking cigarettes when you completed our previous survey in [LSD]. What is your current status?
		    1 I have remained stopped ever since
		    2 I relapsed back to smoking for a while, but have quit again
		    3 I am back smoking

Their ID will remain the same through completion of the ITC survey and ETM. Their home panel ID will be linked to their survey pin. This is the only unique identifying information linking respondents to their answers to both the ITC survey and the ETM.* *-- Virginia Tech will then redirect the respondent's info to SRC as a quality check, and to the respondent's home panel so that the incentive can be paid out.*
