Thus, routing that references "FORMERGFK" is not relevant for 4CV4, but was retained to avoid generating new issues (i.e., given that no respondents would be affected since none meet the condition).</p> <p>IMPORTANT: Beginning at 4CV3, all new recruits coded as 001/OwnerID=8 will remain as 001/OwnerID=8 in future waves (i.e. will no longer be ITC-owned). 001/OwnerID=80 applies only to recontact respondents who were coded as 001/OwnerID=80 at 4CV2 (first recruited at 4CV1).</p>

009	BI090	<p>Note for PIs and analysts: For panelists recruited via GfK (i.e. 001/OwnerID=2 and 8, including former panelists recontacted via GfK (FORMERGFK=1)), a separate version of the 4CV3 web survey program was created by the Survey Research Centre (SRC) to accommodate GfK's requirement that their panelists be allowed to continue through the survey program even if they don't select ANY on-screen response (i.e. clicking 'next' at a question without endorsing any response).</p> <p>To enable this functionality, the GfK version of the web survey program has a background code programmed at every question called 'GfK no response', which behaves like a non-response option. This non-response option will NOT ever appear on-screen to the respondent and will only exist in the program code. It will be coded by default if any respondent advances past a question (clicks 'next') without selecting any on-screen answer option.</p> <p>--- In the web survey routing, this 'GfK no-response' code will be treated the same as if the respondent had selected 'Refused' (Prefer not to answer).</p> <p>--- An exception to this is for the US ETM Study invitation questions (ETM210a, ETM211a) where the GfK 'no response' code will be treated the same as if the respondent had selected 'No...'. However, in the case of any essential questions in the screener that determine eligibility, such respondents will be terminated.</p>

		<p>. . . we invite you to participate in the International Smoking and Vaping Survey -- a unique study of people who use nicotine (currently or in the past) -- in the United States, Canada, England and Australia. You can complete the survey online, at your convenience.</p> <p>[All -- (C or P):] The survey will ask you about your beliefs, attitudes, and behaviours related to tobacco and nicotine use. Your answers will help us understand how views may change over time.</p> <p>There are no known risks associated with the survey. The benefits are that your responses will help policymakers and health professionals develop future policies and programs on tobacco and vaping products.</p> <p><i>(If the survey invitation was not addressed directly to you or was received in error, please stop here and inform the survey administrator. We cannot provide remuneration for surveys completed by anyone other than the intended participant.)</i></p> <p>Programmer: Display PI photos and logos here. 029	BI110b	<p>Ask all. First we'll ask you a few essential questions for statistical purposes and to determine if you're eligible to participate.</p> <p>Participation is voluntary and you may withdraw at any time. You may skip any non-essential questions. You may withdraw your consent after starting the survey by emailing [email address for survey help].</p> <p>All personal information [001/OwnerID=0, 7 or 80: , including your name, address,] and survey answers will be kept strictly confidential and will not be shared with any person or group outside of the research team.</p> <p>The study data will be held in electronic files at the University of Waterloo (Canada) on computers that are secured, password-protected, and can only be accessed by the research team. After two years, data without names or personal information may be shared with other health researchers.</p> <p>If you are eligible, we will contact you to participate in the follow-up study in about 18-24 months.</p>
030	BI110c	<p>Ask all. On completing the survey: Once you reach the last screen of the survey your answers will be kept for analysis, unless you email [email address for survey help] to say that you withdraw consent.</p> <p>On the last screen of the survey be sure to click the 'submit' button at the bottom of the page. This will allow us to more quickly provide you with [payment]. <i>Note to file: On 9Aug2022, Lisa Covens (Leger) requested that the 030/BI110c script for Canada say "This will allow us to more quickly provide you with your incentive". Do not use the 'Enter' key on your keyboard. - During the survey, if you need to return to a previous question, click the '<<<' (previous) button at the bottom of the page to go back. Do not use the browser's 'Back' button or the backspace key on the keyboard. - If you do not wish to answer a question, you may select 'Prefer not to answer'. However, some questions are mandatory because they determine your eligibility for part or all of our survey. If you do not respond to those questions you will not be able to continue in the survey. - The software will record and save your survey answers as you go, allowing you to stop and start again if you cannot complete the survey all at one time. You can click on the 'Cont. later' (continue later) button to exit the survey. If you click 'Cont. later' after a 30-minute period of inactivity, you will see the message 'invalid request.' In either situation you will be able to re-enter the survey where you left off, using the link provided in the invitation.

047	MP131	<p>Ask all. ** IMPORTANT – READ CAREFULLY ** In this survey we mostly ask about four different types of products. You will be asked about all four types at different points throughout the survey. 1. Ordinary cigarettes (including roll-your-own and [factory-made/ pack])</p>

Q#	VarName	4CV4
		<p>2. Vaping products</p> <p>3. A newer kind of product, called heated tobacco products (or heat-not-burn products)</p> <p>4. Oral products that are placed in the mouth where the nicotine is absorbed</p>
048	MP120	<p>Ask all. [indent]**IMPORTANT** For the purposes of this survey, please use the following definitions.</p> <p>1. Ordinary cigarettes (including roll-your-own and [factory-made/pack]) that are lit, burned, and produce ashes. Ordinary cigarettes may also be referred to as cigarettes throughout the survey.</p> <p>[display image here]</p> <p>Image Filename: 4CV4_MP120__CA+AU+US+UK_OC (Apr07-2022).png</p> <p>2. Vaping products (sometimes called e-cigarettes) heat a LIQUID ONLY. Vaping products do NOT contain actual tobacco. The liquid often contains nicotine and is often flavoured.</p> <p>[display image here]</p> <p>Image filename: 4CV4_MP120_EN_CA_VP (Apr08-2022).png Image filename: 4CV4_MP120_FR_CA_VP (Apr11-2022).png Image filename: 4CV4_MP120_EN_US_VP (Apr29-2022).png Image filename: 4CV4_MP120_EN_UK_VP (Apr08-2022).png Image filename: 4CV4_MP120_EN_AU_VP (Apr12-2022).png</p> <p>3. Heated Tobacco Products (HTPs, or heat-not-burn products) heat ACTUAL TOBACCO to create an emission that is inhaled. HTPs are much less common than vaping products, and they ALWAYS contain actual tobacco in the form of sticks or capsules, or loose tobacco. Some HTPs may also have liquid, but what matters is that they contain actual tobacco.</p> <p>[display image here]</p> <p>Image filename: 4CV4_MP120_EN_CA_HTP (Apr08-2022).png Image filename: 4CV4_MP120_FR_CA_HTP (Apr11-2022).png Image filename: 4CV4_MP120_EN_US_HTP (Apr29-2022).png Image filename: 4CV4_MP120_EN_UK_HTP (Apr08-2022).png Image filename: 4CV4_MP120_EN_AU_HTP (Apr12-2022).png</p> <p>4. ORAL PRODUCTS SCREENER		
084	BI030	Ask all. [indent]The next questions are about oral products that are placed in the mouth and nicotine is absorbed. For the purposes of this survey please use the following definitions for three types of oral products . 1. SNUS is a SPITLESS oral tobacco product often sold in pouches, or sometimes as loose, moist snus. Snus is different from 'other oral tobacco' (see below) because it is placed inside the TOP LIP and it DOESN'T PRODUCE SPIT.

		<p>If any of (ETM110a, ETM111a, ETM210a, ETM211a, ETM310a, ETM311a)=1, go to ETM sub-study. Otherwise, go to survey firm website.</p> <p><u>Programming Notes for respondents redirected to ETM2 sub-study:</u> -- Note this is different than the procedure at 4CV2/ETM1. -- Once the respondent has completed the ETM portion at Virginia Tech, the respondent should be redirected back to SRC to register as a complete. -- Time stamps of sending a respondent to Virginia Tech and receiving the respondents completion of the ETM sub-study should be programmed as a quality control measure. -- Respondents will not be given a new ETM ID. Their ID will remain the same through completion of the ITC survey and ETM. Their home panel ID will be linked to their survey pin. This is the only unique identifying information linking respondents to their answers to both the ITC survey and the ETM. -- Virginia Tech will then redirect the respondent's info to SRC as a quality check, and to the respondent's home panel so that the incentive can be paid out.</p>
