		<p>First we'll ask you a few essential questions for statistical purposes and to determine if you're eligible to participate.</p> <p>Participation is voluntary and you may withdraw at any time. You may skip any non-essential questions. You may withdraw your consent after starting the survey by emailing [email address for survey help].</p> <p>All personal information [001/OwnerID=0 or 7: , including your name and address] will be kept strictly confidential and will not be shared with any person or group outside of the research team.</p> <p>The study data will be held in electronic files at the University of Waterloo (Canada) on computers that are secured, password-protected, and can only be accessed by the research team. After two years, data without names or personal information may be shared with other health researchers.</p> <p>If you are eligible, we will contact you to participate in the follow-up study in about 12-24 months.</p>
024	BI110c	<p>Ask all. On completing the survey: Once you reach the last screen of the survey your answers will be kept for analysis, unless you email [email address for survey help] to say that you withdraw consent.</p> <p>On the last screen of the survey be sure to click the 'submit' button at the bottom of the page. This will allow us to more quickly provide you with [payment].</p>

HTP SCREENING		
062	HN103	Ask all. The next questions are about heated tobacco products. Heated tobacco products (HTPs, or heat-not-burn products) heat ACTUAL TOBACCO to create an aerosol that is inhaled. HTPs are much less common than vaping products and they ALWAYS contain actual tobacco in the form of sticks, capsules, or loose tobacco. Some HTPs may also have liquid, but what matters is that they contain actual tobacco.
