009	BI08526 [A]	<p><b>Interviewers should be provided with this information so that they can read it if the respondent asks for more information about the survey:</b>  <b>A) IMPORTANCE OF SURVEY – WHO IS DOING IT</b>  This is a survey of smokers and also those who have recently quit in New Zealand. This survey is one way for us to get the views of smokers and quitters on issues that are relevant to them. Another goal of the survey is to find out about patterns of smoking and quitting and what influences these. Some people find the questions quite interesting.</p> <p>Participation in the survey is voluntary and you may skip any non-essential questions if you wish. You may stop and start again if you cannot complete the survey all at one time. You can withdraw from the study at any time without giving a reason. If you withdraw from the study, or decide not to participate, there will be no disadvantage to you other than you will not receive the Warehouse voucher.</p> <p>The NZ director of this research project is:  Dr. Richard Edwards, University of Otago (Ph (64 4) 918 5089 or mobile: 021 870 708).</p>

		<p>For extra information please ring the free phone for Research New Zealand: 0800 273 732.</p> <p><b>B) WHAT'S IN IT FOR ME?</b>  We will talk to you on the telephone for approximately [survey length] minutes and we think you will find the questions quite interesting. To reimburse any costs of participation a [reimbursement] will be sent to you once the interview is completed. There is no direct benefit to you, but your answers will greatly contribute to generating evidence about smoking and efforts to reduce the harm that it causes in New Zealand.</p> <p><b>C) IF RESPONDENT SAYS THEY NO LONGER SMOKE (ACCEPTANCE OF QUITTERS):</b>  We are very keen to get the views of people who have quit smoking as well - so we would be very grateful if you could help us.</p> <p><b>D) NEXT SURVEY – HOW MANY TIMES WILL YOU CALL ME?</b>  We would like to get your views as things change in New Zealand. So we may like to recontact you again in about 12-18 months from now, and possibly in 12-18 months after that to invite you to participate in follow-up surveys. Participation in the survey is voluntary and you may skip any non-essential questions if you wish. To reimburse any costs of participation a [reimbursement] will be sent to you once the interview is completed.</p> <p><b>E) HISTORY OF RESEARCH NEW ZEALAND:</b>  Research New Zealand is the largest social research company in Wellington. We're locally owned and operated and have been around for more than 25 years. We work mainly for the public sector, conducting research for Government departments. We also do health-related research for universities, such as this survey today.</p>
